# Largest Oriental Rug Collection in Chicago Is Now Ready for You

THERE has been a great deal written and said of late about difficulties in importing Oriental Rugs and the scarcity of them. While all those statements are in a measure true, still we are glad to be able to announce that Our Purchases for the Fall Season are fully up to the standard of former years, both in quantity and quality, so that, as usual, we are ready to show to the Art Loving Public of Chicago the finest and largest collection of Oriental Rugs in all sizes and qualities.

We have never believed in marking our Rugs at high prices and conducting sales periodically by so-called reductions; hence you will find that our regular prices compare favorably and at times are even lower than much-advertised sale prices on dependable Rugs.

We believe it will be to your interest to see our large selection and compare prices before making your decision.

The very complete exhibit of Studebaker Limousines, Broughams, Sedans, Coupes and Cabriolets at the L. Markle Company, Michigan Avenue at 21st Street, is staged at the height of the closed car buying season.

> A beautiful Limousine in rich, royal blue, trimmed in heavy dark blue broadcloth and fitted with the very latest trimmings in silks, cut glass and silverwork, is proving an especial favorite to those who are interested in a beautiful family car.

> The four passenger Studebaker Coupe, with its curved glass sides and rich interior trim, also comes in for its share of favorable comment. This coupe is exclusively original-it represents something entirely new in this type of car. It is especially roomy and comfortablewith more vision to the driver and passengers than any closed car on the market, in the gasoline type. Small wonder, indeed, that so many should favor the Studebaker Coupe-it is a car equally as well adapted to business use as it is for the theatre, shopping and all social purposes.

> The color and varnish work of Studebaker has been famous for over two generations-and it appears at its best on Studebaker Closed Cars.

Every car is built on the big, powerful six-cylinder Studebaker chassis-and Studebaker is still the most powerful car of its weight on the market.

Place Gordon-Detwiler 3rd Floor Michigan Boulevard 30 N. Michigan Boulevard, Opposite Public Library

Are you interested in South America? Are you going to share in the benefits arising from gigantic trade and commerce that is springing up between the United States and the South Americana Republics? If so, you must learn Spanish, for South Americans are not easy to deal with unless you speak their chosen language. So why not take the Fall Spanish Course of the Gordon-Detwiler Institute, as upwards of a thousand others—bankers, manufacturers, exporters and their men and women employes—are going to do?

The Gordon-Detwiler Course of Spanish lessons is a capital one in every respect. It was written by a corps of the best known professors of Spanish in the

entire world.

The Course is given in thirty lessons of one hour each. \$7.50 is the entire cost. The printed lesson leaflets are provided you free to take home and keep. You may attend at 11:05 A. M., 12:15, 3:15, 5:45 and 8:15 P. M. You may attend at the same hour on each class day or you may interchange to suit your own convenience. Spanish conversation is taught in these thirty lessons. This does not mean that after thirty lessons you absolutely master the Spanish language, but it does mean that a splendid working business vocabulary of about eight hundred words is given. Previous knowledge unficessary. Grammar is constantly kept in the background. A living language is mastered more readily by practice than by studying rules of grammar. This Fall Class is filling at a surprising rate, therefore to avoid possible disappointment you should mail a postal card or telephone at once for further information which will be sent you immediately. Telephones Randolph 4536 or 4835.
